As pointed out by the Applicants in the Argument section of the Appeal brief that the cited prior art (Santosuosso et al. [6,701,520]) taken alone or in combination fail to teach, in combination with the other claimed limitations, *"determining whether an immutability flag that is inserted into the class that describes the object is set, wherein the object is immutable if the immutability flag inserted into the class that describes the object is set; if the object is immutable, passing an argument to the server application that includes a reference to the object, the argument not including a copy of the object; and if the object is mutable, passing a copy of the object to the server application"* as recited in the independent claims 1, 8, 11, 18, 21 and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
